Fitness365 Research Findings

School Children in India need to be more active

Participation in physical activity during childhood can aid the development of motor abilities and lay the foundation for good health, especially cardiovascular health.

Train children in Sports of their choice.

Help children identify Sports they are best suited for, track Sports Skills and Techniques they are learning, and identify what Sports Position they are more likely to succeed in.

- Learn Sports Skills and Techniques
- Track Sports Performance
- Track Fitness Score and BMI

We work towards building High Performance School Teams and Athletes in Team Sports and Individual Sports.

They are encouraged to participate and excel in During-School, Inter-School and District Competitions, Professional Championships and Elite Competitions depending upon their proficiency levels.

TOP Sports Coaching aims at Nurturing Sporting Excellence and help them become champions in their chosen Sports.
